

Welcome to the Tier One Contract Pipeline for Glasgow City Region's £1 billion City Deal Infrastructure Programme

February 2022

The Glasgow City Region City Deal was the first in Scotland and is one of the largest in the UK, with £500 million funding each from both the UK and the Scottish Governments and the local authorities contributing a further £130 million. The City Deal is supporting 21 infrastructure projects across the Region for new roads, bridges and improved transport infrastructure. This together with construction, remediation and public realm investment will help to unlock vacant sites in key locations, assisting further housing, retail and commercial development. In fact, the City Deal is anticipated to lever an estimated £3.3 billion of private sector investment over 20 years.

Participating councils: East Dunbartonshire, East Renfrewshire, Glasgow City, Inverclyde, North Lanarkshire, Renfrewshire, South Lanarkshire and West Dunbartonshire.

Total value of upcoming contracts set out in this document:

- East Dunbartonshire: £275,000
- East Renfrewshire: £9 million
- Glasgow City: £121.1 million
- Inverclyde: £2.8 million
- North Lanarkshire: £119.3 million
- Renfrewshire: no upcoming contracts confirmed
- South Lanarkshire: £3.25 million
- West Dunbartonshire: £35 million

Overview of Contract Pipeline

Details of upcoming procurement plans are provided overleaf. Please note the following:

- Dates shown are estimated and for guidance only. These may be subject to change.
- Total value of upcoming contracts for each council is shown on page one. For details on individual contracts, please refer to the member authority contact.
- Some contracts may be aggregated or dis-aggregated at the discretion of the council.
- Some contracts may be procured via an existing framework agreement.

In terms of the Contract Pipeline:

- The contract title and a brief description provided by the council procuring are shown in columns B and C.
- Look at column F to find out how the contract is being procured i.e. through direct advertising or using a framework. See below for more guidance on this.
- Where a framework is being used, details of the framework and when it is due for renewal are indicated in columns G and H.
- The relevant council and procuring lead officer are shown in columns A and L.
- Details are provided for each council's main procurement contact(s).

How we procure and what this means to you

Contracts are procured in a few different ways:

- Some contracts are procured through a Tender Process which means the contract will be advertised on Public Contracts Scotland (PCS).

WHAT YOU NEED TO DO

You should register on [Public Contracts Scotland](#). Log in and go to the supplier control panel, choose alert profile to add categories and use the "search categories" tab and enter "Glasgow" into the search box and then select Glasgow and Clyde Valley City Deal, to receive updates on upcoming contract opportunities being advertised through the website.

- Many council contracts are procured via an existing **council, Scottish Government or Scotland Excel framework agreement**.

Framework agreements are set up to provide best value - both in saving time and money for the public purse.

A framework will usually include a range of large companies and small and medium-sized enterprises (SMEs). When a council is seeking to procure using the framework, the companies on the framework can bid for the contract.

WHAT YOU NEED TO DO

- If you are **already on the framework** shown, then note that the procurement is coming up and get ready to put forward a Bid. You should also check when the framework is due to be renewed.
- If you are **not on the framework** shown and would like to be in the future, check when it is due to be renewed and contact the relevant organisation nearer the time.
- If you are **not a Tier One contractor, and think that the contract might offer sub contract opportunities** for your business - then you can contact the contractors on the framework direct to find out more.

WHAT ELSE CAN YOU DO?

- Follow us on twitter and keep an eye on the Procurement page on the City Region website. We will post updates of companies winning contracts and on upcoming Talking Tenders workshops and supply chain events.
- Access Support in Procurement: The Supplier Development Programme provides free tender training and hosts meet the buyer events. You can register for free at www.sdpscotland.co.uk.

East Renfrewshire	Main contract Aurs Road	Appointment of main contractor: Aurs Road will be upgraded and realigned along its 2 kilometres length between Springfield Road in Barrhead and Stewarton Road in Newton Mearns. The project consists of 2 sections of road being straightened by creating 2 sections of new road; replacement of existing weak bridge with new widened bridge; installation of second pedestrian bridge; installation of 600m long Promenade built into the existing Dam face; installation of 2 kilometres long Active Travel Route for cyclists and pedestrians; installation of 2 metres high x 2 metres wide Culvert to provide natural top water level in Balgray Reservoir (Culvert cuts through existing Dam to link to Brock Burn); formation of roundabout and formation of car park area. Ancillary works such as new street lighting, traffic signals, road markings, protection barriers etc. will also be installed. Due to the project site's location within the Dams to Darnley Country Park, bespoke artwork, choice of materials and soft landscaping are an integral part of the finished product.
